KEY PROJECTS

Thesis Treasure

Technologies: React 18, TypeScript, Vite, shadcn/ui, Tailwind CSS, Framer Motion, Supabase, PostgreSQL

A comprehensive platform for college academic resources including previous year papers, study notes, and course syllabuses.

The platform is actively used by many students for accessing academic resources efficiently. Focused on usability, accessibility, and fast navigation.

Live: <https://cluster-university-resource-hub.netlify.app/>

Champion Textiles

Technologies: Next.js 16.2.3, React 19, Tailwind CSS 4, Supabase Auth, Database and Storage, Framer Motion, Lucide React

Production-ready website for Champion Textiles. The frontend is optimized for a Kashmir-based textile manufacturer with live catalog syncing, clean collection routes, and stronger local SEO foundations.

It is a responsive business website showcasing products with a modern UI, mobile-friendly layouts, and intuitive navigation.
